Observations & Recommendations

Strengths

- Professional polish** — the site looks premium and trustworthy
- Clear value proposition** — "Don't Let a Bad Setup Cost You Your Brand" is direct
- Structured services** — numbered steps create a clear flow
- Intake process** — Client Intake Request Form shows readiness

Opportunities

- WP Engine badge** — appears slightly pixelated; consider swapping for a higher-res version
- Social proof** — testimonials or case studies would strengthen credibility (WNQ could be first)
- Pricing transparency** — consider adding starting prices or package tiers
- Blog/Insights** — regular content would boost SEO and authority
- Portfolio section** — showcase completed client work (WNQ brand revamp, photo sessions)

Panel Review Request

This review is submitted to the **Advisory Panel** for feedback on:

- Does the messaging resonate with the target audience (creators, founders)?
- Are the three highlighted services the right ones to lead with?

3. What's missing that would convert more visitors into intake form submissions?
4. Should pricing be visible on the homepage?
