## Overview

Field	Detail
Name	John Walters
Title	Associate Director, Global Facilities Engineering
Company	AbbVie
Location	Lake County, Illinois
Tenure at AbbVie	11+ years

## Work Experience

### AbbVie (11 years, 7 months total)

#### Associate Director of Global Facilities Engineering (Nov 2021 – Present)

- Leadership role over global facilities engineering
- Hybrid work model, based in Lake County, IL

#### Project Engineer (Aug 2014 – Present)

- Applies project management and engineering knowledge across various project sizes
- Leads design teams, provides project estimation, develops project scopes
- Manages end-to-end lifecycle of engineering projects within and across disciplines

## Education

- **Indiana State University** (1993 – 1998) — BS, Construction Technology
  - Activities: Home Builders Association

## Skills

Leadership · Team Leadership · Project Management · Project Planning · Contract Management · Negotiation · Procurement · Engineering · Customer Service

## Interview Relevance

**Role:** Likely the *hiring manager or senior decision-maker* for this position.

- As Associate Director of Global Facilities Engineering, John likely **oversees the controls engineering function** at AbbVie
- His 11+ year tenure means he has deep knowledge of AbbVie's engineering standards, contractor relationships, and project pipeline
- His Construction Technology background + Project Management focus means he'll care about **scope delivery, documentation, and communication** — not just technical depth

- **Frame your answers around:** project milestones, clear communication, working within structured engineering teams
- He may be less interested in raw PPCL syntax and more interested in **how you manage projects, document work, and collaborate with cross-functional teams**
